

CURRENT TRAFFIC IMPACTS

The south side of W. Grand Avenue between N. Damen Avenue and N. Ashland Avenue will be closed for construction, with the south-side closure currently expected to remain in place through approximately November 20. Eastbound traffic will be shifted into one lane on the north side of Grand Avenue through the work zone, while westbound traffic will remain in the adjacent north-side lane.

Motorists should expect changes to the existing traffic pattern and use caution when traveling through the area. Additional traffic changes, side street impacts, or stage changes will be posted here as construction progresses.

PARKING RESTRICTIONS

Once traffic control is established, parking will not be permitted on Grand Avenue between Damen Avenue and Ashland Avenue. The north side of Grand Avenue will be used for live eastbound and westbound traffic through the work zone.

WORK ZONE REMINDERS

Construction schedules are subject to change due to weather, field conditions, utility conflicts, and other unforeseen circumstances.

In all construction areas:

- Please observe all regulatory traffic signs and temporary traffic-control devices.
- Slow down and remain alert while traveling through work zones.
- Keep children and pets away from active construction areas.
- Continue to support local businesses that remain open during construction.
- Dust and noise may be present during construction activities; please take appropriate precautions.
- Grand Avenue is a designated bicycle route. Motorists should remain aware of bicyclists and share the roadway where required.

Please call 311 to report non-emergency concerns or suspicious activity. For crimes in progress, including theft or vandalism, call 911.
